

TRAFFIXMY SUMMIT 2026

Smart, Safe & Sustainable Mobility

15 – 16 June 2026

Bangi Avenue Convention Center (BACC), Selangor

Organised by:

ABOUT THE SUMMIT

TraffixMY Summit 2026 is Malaysia's premier national platform dedicated to advancing smart, safe, and sustainable mobility solutions. It brings together policymakers, regulators, road authorities, highway concessionaires, local authorities, construction professionals, road and highway operations practitioners, safety practitioners, and technology innovators.

The summit addresses the growing complexity of urban mobility, road and highway operations, intelligent transport systems, and Construction Traffic Management (CTM) through strategic dialogue, regulatory insights, industry case studies, and future-ready digital solutions. All discussions and knowledge-sharing are aligned with key national guidelines and regulatory frameworks, including LLM Guideline GP-/T6-08, *Arahan Teknik (Jalan) ATJ 2C/85 (Pindaan 2017)*, and JKR Standard & Specification SPJ 2017/19, ensuring compliance-driven and practical implementation across planning, construction, operations, and maintenance stages.

TraffixMY Summit bridges policy, planning, construction, road and highway operations, enforcement, and innovation—delivering actionable outcomes that support Malaysia's road safety agenda, smart city initiatives, digital transformation goals, and ESG commitments.

VISION

Powering the future of smart, connected, and sustainable mobility.

MISSION

Connect: Bridge the gap between urban planning, highway operations, and construction traffic management

Innovate: Drive the adoption of emerging technologies.

Protect: Enhance public safety through Road Safety Audits and strict compliance with construction traffic regulations.

Evolve: Empower local authorities to implement the next generation of urban intelligence and net-zero mobility

SUMMIT OBJECTIVES

The objectives of TraffixMY Summit 2026 are to:

- Strengthen national dialogue on **smart and sustainable mobility systems**
- Enhance **road safety and traffic management practices** across urban and highway environments
- Promote **regulatory compliance and professional standards** in Construction Traffic Management (CTM)
- Showcase **emerging technologies and digital solutions** for traffic enforcement and highway safety
- Foster collaboration between **government, industry, operators, and technology providers**
- Share best practices, lessons learned, and real-world case studies

WHO SHOULD ATTEND

Government & Authorities

- Ministries & regulatory agencies
- JKR, LLM, MIROS, DOSH
- Local authorities & city councils

Safety & Traffic Professionals

- Traffic Management Managers, Officers & Supervisor
- Safety Practitioners

Industry & Operators

- Highway concessionaires
- Construction companies (G1 – G7)
- Consultants & infrastructure planners
- Contractors & Utility Providers

Innovation & Technology

- Smart mobility solution providers
- Traffic enforcement & monitoring technology companies
- ESG & sustainability practitioners

KEY THEMES

- Smart Urban Mobility & Intelligent Highway Operations
- Road Safety Audits & Safe Infrastructure Design
- Construction Traffic Management (CTM) Compliance & Risk Assessment
- Emerging Technologies in Traffic Enforcement & Monitoring
- ESG, Green Highways & Net-Zero Mobility
- Digital Transformation & Innovation in Mobility Management
- Updated Guidelines, Best Practices & Effective Methodologies for Modern Traffic Management

WHY YOU SHOULD ATTEND

- Gain direct insights from regulators and authorities
- Understand latest compliance requirements and industry expectations
- Learn from real case studies and operational experiences
- Discover innovative technologies shaping future mobility
- Network with decision-makers and industry leaders
- Strengthen professional knowledge in traffic and mobility management

EXPECTED OUTCOMES

Participants will gain:

- Enhanced understanding of national mobility and safety priorities
- Practical knowledge on CTM compliance and risk management
- Exposure to smart mobility technologies and innovations
- Stronger inter-agency and industry collaboration
- Actionable insights applicable to real-world projects

ORGANISER

Nestmatrix Solution

A trusted training and consultancy provider specialising in construction, traffic management, safety, compliance, and professional development programmes.

Nestmatrix Solution actively collaborates with government agencies and industry partners to deliver impactful capacity-building initiatives aligned with national development goals.

DAY 1: **Smart Urban Mobility & Intelligent Highway Operations**
Theme: ***From Vision to Intelligent Systems***

Time	Programme
08:30 – 09:00	Registration & Welcome Coffee
09:00 – 09:05	Safety Briefing
09:05 – 09:15	Opening Remarks Organising Chair, Nestmatrix Solution
09:15 – 09:30	Opening Keynote Smart, Safe & Sustainable Mobility: Aligning Policy, Infrastructure & Innovation.
09:30 – 10:30	Strategic Infrastructure Planning for National Mobility Systems.
10:30 – 10:45	Networking Coffee Break
10:45 – 11:30	Digital Transformation of Highways: From Conventional to Intelligent Systems.
11:30 – 12:30	Forum 1: Breaking the Silos: Integrating Urban Planning, Road Operations & Construction Traffic Management.
12:30 – 14:00	Networking Lunch
14:00 – 15:00	Transforming City Traffic Through Multimodal Integration by Local Authority.
15:00 – 16:00	Forum 2: Beyond 2030: Future-Proofing Urban Mobility in Malaysian Cities
16:00 – 16:30	Championing Smarter Roads: Emerging Mobility Technologies & Smart Infrastructure.
16:30 – 17:00	ESG & the Green Road Agenda: Driving Net-Zero and Sustainable Mobility in Malaysia.
17:00	Day 1 Wrap-Up & Strategic Networking

DAY 2

DAY 2: Highway Safety, Construction Traffic Management (CTM) & Innovation

Theme: **From Compliance to Real-World Execution**

Time	Programme
08:30 – 09:00	Registration & Coffee
09:00 – 09:45	Road Safety Audits: Challenges, Strategic Roles & Infrastructure Improvement Initiatives.
09:45 – 10:30	Safe Urban Infrastructure for All Road Users: From Proactive Design to Accident Prevention.
10:30 – 10:45	Networking Coffee Break
10:45 – 11:45	Forum 1: From Enforcement to Intelligence: Emerging Technologies & Market Trends in Traffic Enforcement for Safer Roads.
11:45 – 12:30	Construction Traffic Management (CTM) Essential Requirements, Compliance & Industry Expectations.
12:30 – 14:00	Networking Lunch
14:00 – 15:00	Forum 2: Innovation in Action: Smart & Digital Solutions Shaping Safer Roads and Construction Traffic
15:00 – 16:00	Construction Traffic Management (CTM): Risk Assessment & Compliance with DOSH Regulations.
16:00 – 16:45	Case Studies & Lessons Learned Practical Insights from CTM & Road Management by Consultant / Academia
16:45 – 17:00	Implementation & Capacity Building Certified Construction Traffic Management Officer Programme Nestmatrix Solution
17:00	Closing Remarks & Summit Conclusion

Note: All session titles and descriptions are currently placeholders for planning purposes and will be finalized upon speaker advice.

TRAFFIXMY SUMMIT 2026

Smart, Safe & Sustainable Mobility

15-16 June 2026
Bangi Avenue Convention Center

Join Malaysia's premier platform dedicated to advancing smart, safe, and sustainable mobility solutions. Engage with policymakers, industry leaders, practitioners, and technology innovators as we shape the future of road and traffic management.

Secure your seat today. We look forward to welcoming you at TraffixMY Summit 2026.

Ticket Structure

Category		
RM 850	RM 950	10% Discount
Normal Participant (Non-HRD Corp)	Normal Participant (HRD Corp Claimable)	Group Registration (more than 2 participants)

Participants will be awarded CPD (BEM), CEP (DOSH), and CCD (CIDB) points, subject to approval by the respective authorities.

Nestmatrix Solution is a **Registered Training Provider under HRD Corp and the Ministry of Finance (MOF)**. Selected programs under this summit are **claimable under the HRD Corp SBL-Khas Scheme**, applicable to **Malaysian participants only**, subject to HRD Corp terms and approval.
