

## SPEAKER PROFILE

**IR. SITI NURILAM BINTI ABU MANSOR** is a Senior Civil Engineer at the Road Safety Audit and Program Division, Road Department, Public Works Department (JKR) Malaysia. She holds a Bachelor of Civil Engineering from Universiti Putra Malaysia (1999) and a Master's Degree in Highway and Transportation Engineering from the same university (2013). Her expertise focuses on road safety and road safety audits, where she is responsible for conducting safety audits for federal road projects and providing technical advisory services related to road safety.

She has extensive experience in the public sector, having served in various roles since joining the government service in 1999. Throughout her career, she has held several key positions within JKR and the Ministry of Energy, Green Technology and Water (KeTTHA). Her professional experience includes managing water supply projects, developing GIS applications for road alignments, reviewing road standards and specifications, and conducting road safety audits for federal road projects.

In addition to her technical responsibilities, Ir. Siti Nurilam is also actively involved as a trainer and speaker in road safety audit programs. Since 2014, she has been delivering training related to Road Safety Audit stages 1 to 5. She is a Professional Engineer (PE) and holds Level 4 Competency in Road Safety, reflecting her strong expertise and professional recognition in the field of road engineering and traffic safety.
