

SPEAKER PROFILE

MOHD YUSUF ABDUL AZIZ brings nearly 20 years of experience in operations management across multiple industries, underpinned by his Electronic & Electrical Engineering background. Throughout his career, he has developed a strong capability in managing complex workflows, optimizing team performance, and implementing efficient operational processes. His customer-focused approach, strategic planning skills, budget management expertise, and ability to build high-performing teams have consistently contributed to organizational success.

In his leadership roles, Mohd Yusuf has demonstrated a proven ability to supervise, develop, train, and mentor staff while providing clear and effective direction to subordinates. He is highly skilled at aligning operational strategies with organizational objectives, ensuring seamless execution of projects, and fostering a culture of continuous improvement and accountability within his teams.

Beyond his professional achievements, Mohd Yusuf is actively engaged in community initiatives, including corporate social responsibility programs, safety campaigns, and Emergency Response Teams (ERT) for disaster management. His involvement in these activities has strengthened his leadership skills and reinforced his commitment to societal impact. As a speaker, he shares practical insights on operational excellence, workforce development, and effective team management, inspiring audiences to achieve high performance both professionally and personally.
